Prior to placement of a definitive contract for the special tools, spares, training, Tech. Reps., and Handbooks to support the above equipment, request you furnish a detail list or proposal to me for approval.

Reference is made to my 9 April 1956 letter which established our total photographic requirement. This requirement is unchanged; however, confirming our conference of 25-26 April 1956, the requirement for the Type A-1 photographic equipment will be satisfied by surplus equipments from SP-1913. Similarly, three (3) Type A-2 photographic equipments will be furnished from your surplus. It is also my understanding that special tools, spares, and Handbooks necessary to support these equipments will be furnished to me at the same time.

With further reference to the 9 April 1956 letter wherein requirements were established for Type C photographic equipment, Systems 2 and 4 electronic equipment, you are advised these requirements are still valid; however, procurement authority is being withheld pending further development and evaluation.
